**January 5, 2010**

## **B3 Enteric Outbreak – OVER**

The Enteric Outbreak on B3 unit has been declared over. The outbreak was declared on December 30, 2009. The unit is once again open to visitors.

There have been no new cases since December 29, 2009.

Norovirus was identified as the cause of the outbreak.

No other programs or services at PRHC were affected in any way by the outbreak.

As always, when visiting the hospital, hand hygiene remains one of the most important infection prevention and control practices to stop transmission of infectious diseases.
