

PRHC Vision 2014
Engaging. Planning. Inspiring.

HELP WANTED.

Participate in shaping the future of PRHC

Sustain the recovery

After years of deficits, PRHC embarked on an organizational turnaround last year. We committed to becoming financially sustainable, without sacrificing quality, capacity or safety.

Shape a performance-based culture

Restructuring and shifting our performance was, and remains, challenging. The results have been encouraging. We are delivering the performance improvements promised in our Hospital Improvement Plan and have achieved a balanced run rate. We will be in a surplus position by March 2012. Our staff productivity rates are coming in line with the best in the province. Patient volumes and access have been maintained. Patient and staff safety data are demonstrating positive trends.

For more on our performance results, visit our website at prhc.on.ca.

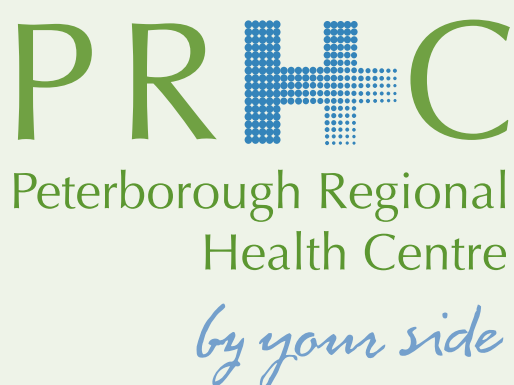

Build the regional platform

As a community member, we invite you to participate in shaping PRHC's future over the coming years. There are a number of ways to get involved as the strategic planning process gets underway in 2011.

Community engagement

Led by members of the PRHC Board of Directors and hospital staff, our community engagement sessions will give participants an opportunity to learn more about hospital programs and services, and to provide their input as we enter the first phase of our strategic planning process.

*Health care matters to us all.
Get involved.*

1 Hospital Drive, Peterborough, Ontario
