Device Registration Using RSA SecurID Access MyPage

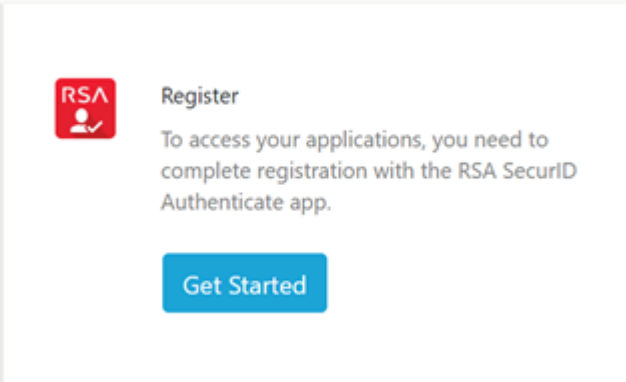

On one device (for example, your computer), do the following:

1.
 - a. Go to RSA SecurID Access My Page:
<https://prhc.auth.securid.com/mypage>
 - b. Enter your e-mail address

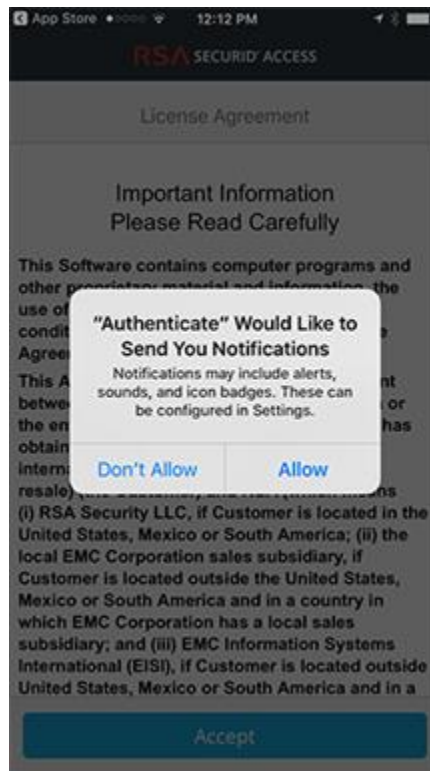

The screenshot shows the RSA SecurID Access My Page registration form. At the top, the text "RSA SECURID ACCESS" is displayed in red and black, with "My Page" written below it in a blue, handwritten-style font. Below this is a text input field labeled "Email Address". Underneath the input field is a blue button with the text "Next".

- c. Complete any addition authentication you may be prompted for.
 - d. Click **Get Started**

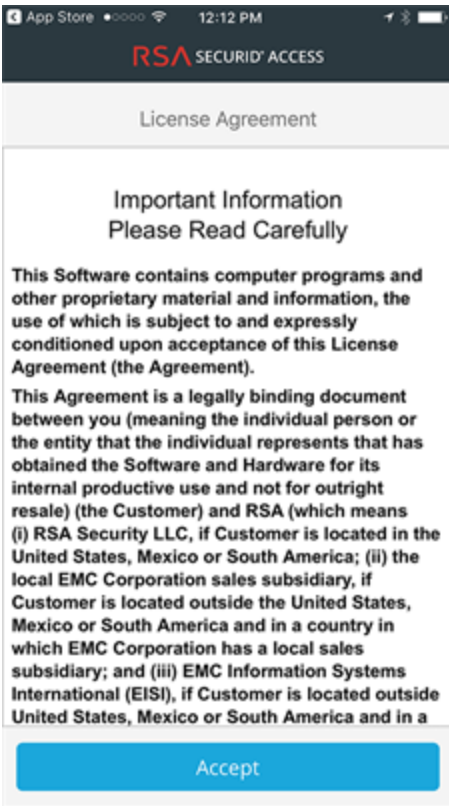

The screenshot shows the RSA SecurID Register page. On the left, there is a red square icon with the RSA logo and a white checkmark. To the right of the icon, the text "Register" is displayed. Below "Register", the text reads: "To access your applications, you need to complete registration with the RSA SecurID Authenticate app." At the bottom of the page is a blue button with the text "Get Started".

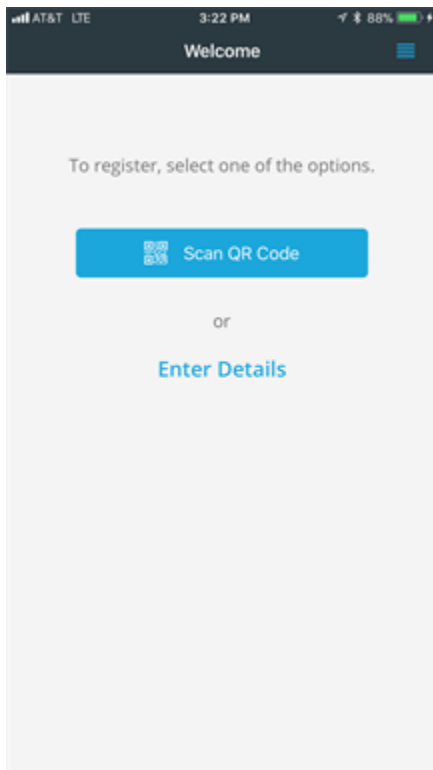

- e. On another device (iOS, Android, or Windows 10), download the RSA SecurID Authenticate App.
- f. On your computer, on the registration page, click Next.
- g. On your mobile device, do the following:
 - a. Open the RSA SecurID Authenticate App.
 - b. Tap **Allow** to allow the Authenticate app to send notifications.

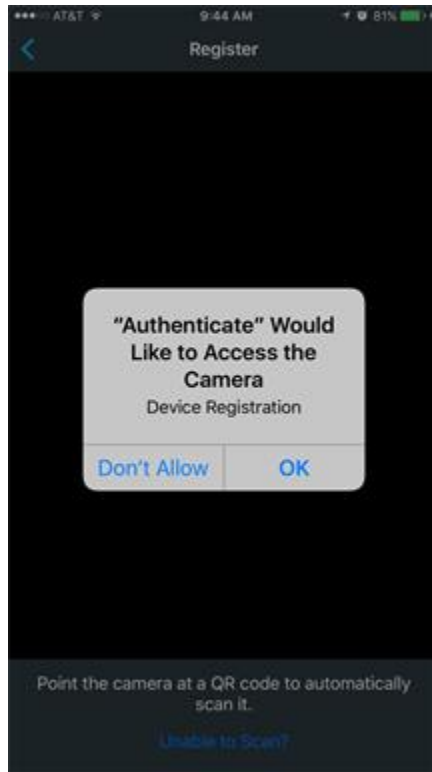

- h. Accept the license agreement.

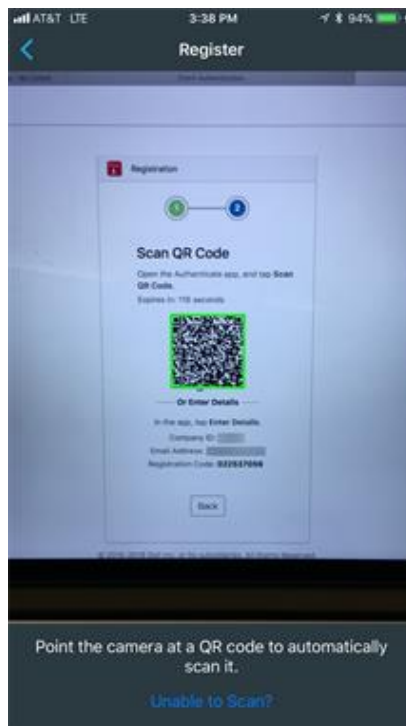

- i. Tap **Scan QR Code**.

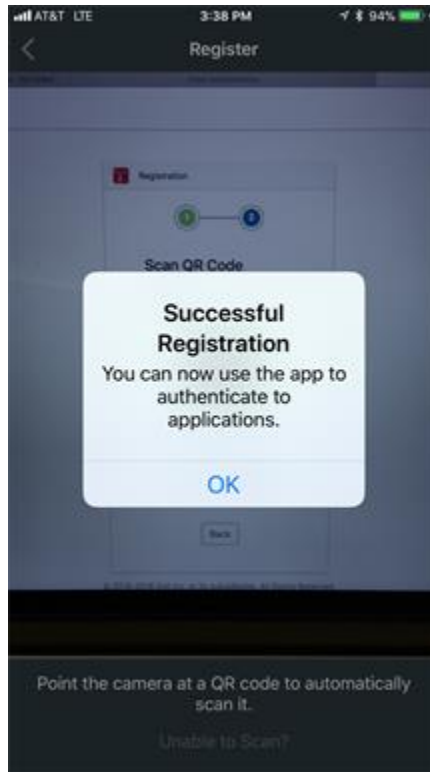

j. Allow the app to access your camera.

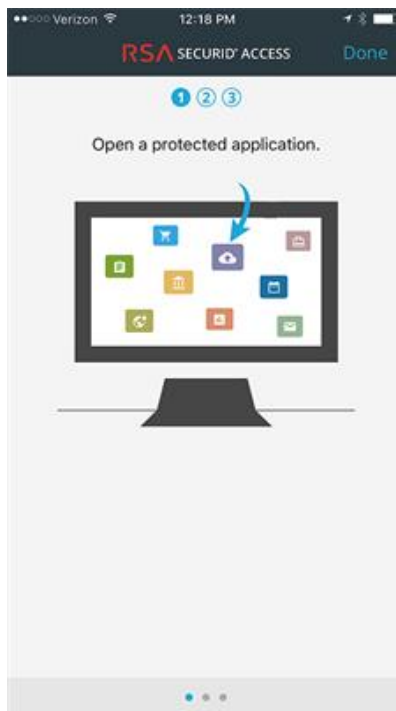

k. Scan the QR Code that displays in My Page.

l. Tap **OK** after setup is complete.

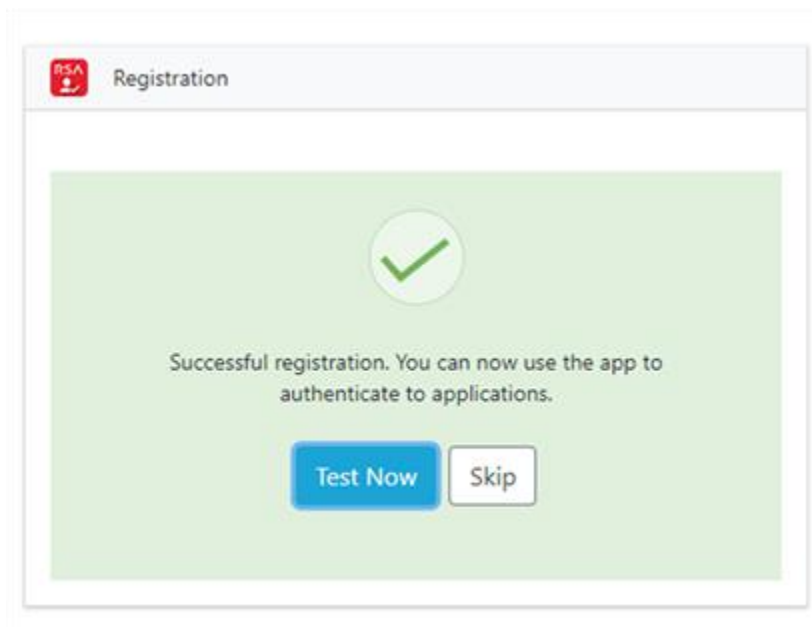

m. Swipe through the tutorial.

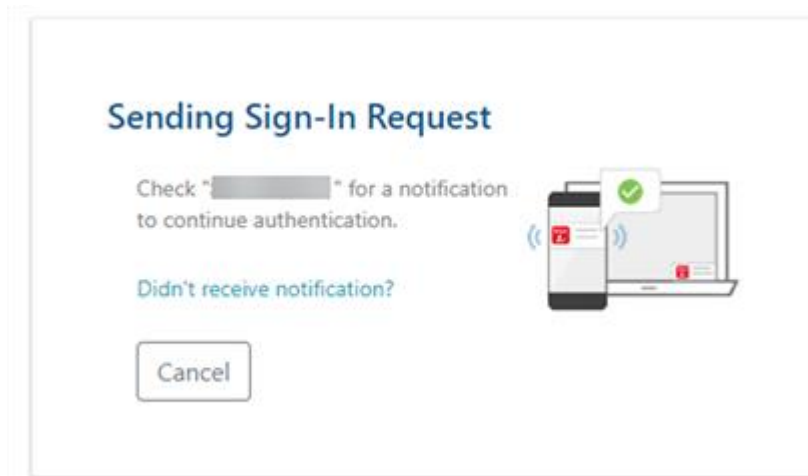

n. The app home screen appears, and the app is ready for use.

o. On your computer, on the registration page, click **Test Now**.

- p. RSA SecurID Access sends a notification to your registered device.

- q. On your mobile device, tap the notification and approve it.
- r. The MyPage home screen displays. You have successfully registered and tested your device.
